

Ultrasound Expert

MEDICAL E-LEARNING PLATFORM

Ultrasound Expert enables medical professionals to acquire ultrasound skills through video-based courses, assessments, and certification.

It revolutionizes remote training, providing theoretical and practical skills equivalent to in-person learning without high costs and travel.

The platform brings benefits to medical doctors, practitioners, hospitals, and medical institutions by facilitating individual and group education.

VIDEO COURSES

Ultrasound Expert platform provides prerecorded video courses which can be viewed at leisure. Trainee can view the material multiple times.

ONLINE TEST

When the trainees believe they have sufficient proficiency in one segment, they can take an online test.

GET CERTIFICATE

When all segment tests have been passed, a certificate of completed course is issued. This allows the trainee to immediately start practicing in their own clinic.
