

Antamedia software Media-kit

This package is compiled with intention to help our partners, journalists, bloggers who would like to review, recommend, or otherwise write about Antamedia products and services. It contains a collection of ready-to-use text product test descriptions, screenshots, pdf manuals, logos, box designs. You may use it on your websites, press releases, marketing materials.

To publish a content, please open the Description.txt file located in each of the software folders. Each Description file contains these paragraphs:

[1] Name [2] Download [3] Description [4] Key Points [5] Keywords [6] PAD File

PDF manuals, screenshots and images are also available and can be printed or resized for your webpage.

If you have any question, I will gladly assist you.

Thank you for spreading the word!

We appreciate your efforts !
