

# ANTAMEDIA POINT OF SALE

Thousands of Customers  
Relies on Our EASY-TO-USE  
POS System, Now Available  
With Plenty New Features

Easy-to-use point of sale and inventory control system help you track all your sales, customers, vendors, purchase orders, and get real-time reports and statistics

- POS items are configured with name, category, retail price or margin, image, minimum quantity on stock
- Reports and statistics show you top selling products, categories, customers, vendors, employees, and loyalty statistics
- Customer center stores customers' details for identification or billing and delivery purposes
- Loyalty program emotionally engages customers to use your services, collect points, and redeem awards
- Hold / Unhold helps you hold current unfinished payment to quickly bill another customer order
- Easy Quick-Edit POS items - increase stock, change minimum stock warning, add new item or category
- Get notified when item quantity drops below specified amount, so you can order only what you need
- Promo pricing & happy hour configuration - offer discounts for desired products to stimulate sales
- Vendors Accounts helps you create purchase orders for required products, keep track of the bills and payments
- Quick price changes of the selected products, or categories.
